Med. 98-16-1.

Sir,

Adverting to para 3 of Government order No. 3775-81Med 126-15-6 dated the 12th December 1916, I have the honor to state that of the two alternative sites proposed for the new Epidemic Diseases Hospital at Bangalore that to east of the Kankanhalli road appears to me to be by far the better one. The site has also been approved by the Chief Engineer and the President of the City Municipal Council, Bangalore. The village Registers show that the site measures about 150 acres - a - sufficiently extensive area for all our requirements. If more space is ever likely to be needed, the area to the east of survey No. 107 would still be available. I enclose a plan of the site for reference.

2. I may add that this site would also be very suitable for the Public Health Institute buildings (proposals regarding which are already before Government) so that, eventually, the Public Health Institute, the Vaccine Institute, ~~the Sanitary Commissioner's office~~, the Epidemic Diseases Hospital, the
